Professional Experience

Machine Learning Engineer @ *Spring Oaks Capital* ‘22-’23

- Developed and deployed etl and modeling pipelines via airflow + k8s for SOC’s daily automated text/call efforts & offer generation (ranking recommendation + OR-Tools integration).
- CICD: unit tests, automated builds, automated deployment via AWS ECR & Codebuild + git actions.
- Contributed to building cloud infrastructure for core tech stack from containerization to resource provisioning & dev environment.
- Prepared Sigma dashboards monitoring online performance metrics for key stakeholders.

Data Scientist @ *Capital One* ‘21–’22

- Productionalized key changes to the core codebase (exposed to 30mm+ active users) from feature engineering/data pipelines, unit tests, custom model architectures, and distributed training/scoring jobs over EKS clusters. Algorithmic changes led to records in value generated.
- Developed sequential recommendation POCs using torch, huggingface, and Nvidia’s Merlin / Transformers4Rec which appeared in the Nvidia GTC Fall summit (2022).
- Co-led/co-created a twice-weekly lecture series on Deep Learning and Neural Recommendation.

Ph.D. Internships @ *Capital One (2X Data Science, 1X Applied Research)* ‘20-’21

- Researched, implemented, and evaluated neural recommendation solutions for adtech problems.
- Wrote extensible pipelines in Pyspark, leveraging unexplored data sources.
- Provided insight and recommendations on the methodology’s utilization in production beyond the scope of my summer project.
- Worked on research involving agent-based modeling and Reinforcement learning as part of C4ML.

Analyst and Business Intelligence @ *Real World Marketing* ‘16-’19

- Responsible for creating automated dashboards, and ad hoc reporting needs. Extracted, compiled, and integrated data sources. Leveraged analytical tools and statistical techniques to interpret data and improve processes. Multivariate analysis paired with A/B testing geared around site conversion points.

Data Scientist @ *Buffalo Check LLC* ‘15-’19

- Cofounded an LLC specialized in delivering advertising solutions to the US military. Drove upwards of 2+ million in revenue as part of a two-person team.
- Responsible for all financial data/modeling/forecasting and interpretation. Quantitative analysis on engagement propensity.

Optimization Analyst @ *Voltari* ‘12-’15

- Conducted analysis centered around first and second-click ad performance. Analysis concerning pricing strategy/optimization. Managed point of interest (POI) database via SQL.
